

SB SHPE 2024-2025

Stony Brook Society of Professional Engineers

Partnership Package

SHPE Stony Brook University

Who We Are

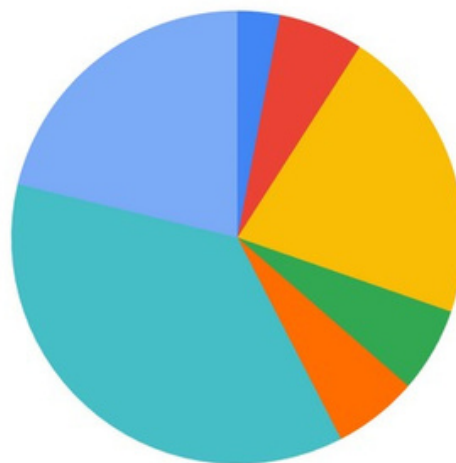

Society of Hispanic Professionals Engineers (SHPE) is a national professional organization, that aims to empower and support Hispanic students in the STEM fields at a national level. The Stony Brook Student Chapter of SHPE is one of the only active student chapters in Suffolk County, NY, empowering and supporting Hispanics within the local community.

Our Values

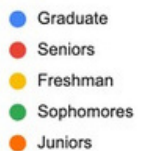

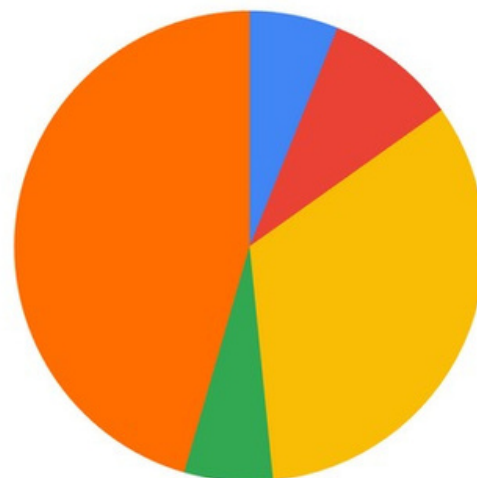

SHPE aims to create a world where Hispanics and other minorities are greatly valued, not just in the STEM field, but everywhere they go. We help our members develop their professional skills and achieve their fullest potential through networking events and collaborations with other organizations.

Our Reach

On campus, SHPE's goal is to mentor and support students who want to improve their professional skills. Students who join SHPE learn how to obtain internships, research, and develop their leadership skills. We aim to foster a diverse and inclusive community of hardworking students on campus and in our local community.

Member SHPE

What we do

Members of our chapter attend a number of events that encourage...

Leadership Development

LeaderSHPE allows our members to connect and network with alumni; discussions on leadership and professional development are the main talking points.

Academic Excellence

Members can attend Study Sessions to assist one another through studying, completing classwork, or tutoring.

Chapter Development

Current chapter members and SHPE alumni get together for dinners and fun events to maintain connections and create new ones.

Professional Development

At the annual [SHPE National Conference](#), our chapter attends the country's largest Hispanic STEM gathering, exposing members to a huge, multi-industry career fair and intensive Professional Development workshop agenda.

Community Outreach

At Pre-College Day, we ignite curiosity and incentive in students to consider attending college and pursuing STEM. SHPE hosted an interactive event at Brentwood High School Workshops in both English & Spanish informed parents of financial aid opportunities while students learned about programming and robots and design.

Make a Difference

Partnership Tiers

Bronze
